WHO WE ARE

02

BRAD2 Group, incorporated in 2014, is an independent contractor to the oil, gas and energy upstream, downstream and infrastructure sectors.

BRAD2 group provides comprehensive services covering all phases of major industrial, infrastructure including power and renewable energy business.

Our specific strength is completing several challenging and complex Engineering, Procurement, Installation, Construction, Commissioning, Operation and Maintenance projects requiring comprehensive management capability and interdisciplinary planning and engineering know-how with 9 years of experience in various fields of present and future technological challenges.

The Company's success is based on engaging fully with clients to understand their requirements and then delivering the project within budget and ahead of schedule Based on cost-effective and technically robust engineering.

We are a dynamic company that also represents Original Equipment Manufacturers. We also carry out Fabrication, Expediting and Inspection services.

BRAD2 Group has well developed technical partnerships with European, Australasia And U.S based technology giants

WHAT WE DO

BRAD2 Group collaborates with local and foreign technical partners to provide in-depth knowledge, technology leadership and world-class talents to scope and assess clients needs, engineer, procure, install, construct and manage state-of-the-art products and services which solve the clients' complex problems. It meets the local content challenges to emerge as a dependable key player in the following chosen Business areas:

OIL & G.A.S.

- Onshore/Offshore Facilities
- Gas processing
- Pipelines
- Marine services
- Logistics

PETROCHEMICAL

- Refineries
- Petrochemical plants

INFRASTRUCTURE

- Roads
- Bridges
- 3 Water facilities
- Buildings
- Power stations

RENEWABLE ENERGY

- Solar
- Wind
- Biofuels
- Biogas
- Hydrogen energy

OUR VISION

To be the best and most efficient products and services contracting and consulting organisation in Africa

MISSION STATEMENT

BRAD2 Group is committed to being leading engineering, procurement, installation, construction and consulting services Company by providing quality technical and management services through highly skilled and motivated employees, impactful technology and proactive leadership.

WE BUILD OUR STRENGTH ON:

- offering pragmatic, reliable and impactful solutions
- having a robust commitment to quality
- representing original equipment manufacturers
- maintaining a solid financial base in company funds and with our bankers.
- collaborating with our global technology partners to ensure we provide world-class technology

OUR CORE STRENGTH

We explore and exploit both local and international resources to present a formidable and dependable team to render services to major industry players in our fields of operation. Our core strength are:

- **Engineering Construction**
- **Oil & Gas**
- **Onshore Pipeline**
- **Building Construction/Civil Works**
- **Liquefied Natural Gas Plant**
- **Renewable Energy Plant (Bio-Refinery)**

ENGINEERING CONSTRUCTION

As an EPICOM contractor, BRAD2 Group offers its clients a comprehensive line of project engineering services, from feasibility study to basic engineering, Front-End-Engineering-Design (FEED) to detailed design, materials and equipment procurement, construction, and commissioning under a system of total responsibility. BRAD2 Group develops, executes, and maintains project schedules within budget, quality and time, and competitive operational efficiency.

OIL & GAS

As an EPICOM contractor, BRAD2 Group has branded itself a leader in the design and construction of onshore hydrocarbon production facilities in Nigeria. We provide innovative and unique solutions to solve the problems associated with greenfield and revamp (brownfield) projects. BRAD2 Group has developed unique expertise to meet field development challenges in demanding the environment. BRAD2 Group provides services for all phases, processes, and components of oil and gas production and transportation, including oil/gas/water separation, waste effluent treatment and disposal, gas compression, gas dehydration, emergency flare systems, NGL production, enhanced oil recovery and drill site facilities as well as early production facilities.

BUILDING CONSTRUCTION/ CIVIL WORKS

BRAD2 Group has completed various infrastructure projects in civil and water facilities. BRAD2 Group offers infrastructural projects engineering, procurement, construction, and project management services.

GAS PROCESSING PLANTS

BRAD2 Group has the technology to design and build many gas processing plants in Nigeria. It does this by assembling experienced project teams and international partners to address specific gas processing requirements for all problematic remote locations, hostile environments, sour gas streams and high injection pressures.

LIQUEFIED NATURAL GAS PLANT

BRAD2 Group has the capability to build and operate L.N.G. plants for gas pre- treatment, liquefaction, storage and regasification for upstream and downstream oil and gas design in safe, operable and maintainable procedures.

ONSHORE PIPELINE

BRAD2 Group has expertise, FEED, detailed design, procurement and construction management experience in onshore pipelines, compressor stations, pump stations, metering stations, import/export terminals, gathering systems, and fibre optic SCADA systems in remote areas with harsh terrain and challenging logistics in line with clients need.

PETROCHEMICAL PLANT (REFINERY)

BRAD2 Group has a wide range of experience in petrochemical process technology and extensive experience and expertise in project development, engineering, procurement and construction from pilot plants to commercial plants in heat transfer, heat integration, centrifugal separator, fluid handling, distillation column maintenance, refinery units instrumentation and control integration, modular refinery systems design.

**RENEWABLE ENERGY PLANT
(BIO-REFINERY)**

We are dealers on Renewable Energy plant.

OUR WORKFORCE/ MANPOWER

Our staff, independent consultants and technical partners have a long history of developing impactful and sustainable technical and commercial solutions for clients' complex and straightforward projects. Our Workforce, from incorporation, has earned excellent clients performance appraisal, thereby fostering the drive to solving further challenges confronting our clients.

Our Leadership Team

BRAD2 Group comprises of a team of highly qualified, experienced and dedicated personnel, co-headed by the Chairman and Managing Director, strengthened by talented and dedicated professionals.

Our Local Content

BRAD2 Group is a 100% owned indigenous Company that seeks to explore and exploit as much as possible local resources to present a formidable and dependable team to render services to major industry players in our fields of operation.

To provide for deficiencies in the local content capacity, wherever it exists, and to meet all requirements for performance and prompt delivery of services, we maintain an overseas base and employ the services of critical expatriates only when such skill is not available in-country. The concept is to assist in knowledge transfer to Nigerians, provide spares for our equipment and procure new facilities required for job execution.

OUR TECHNICAL PARTNERS

Our technical partner, T.T.C., provides industrial automation services and equipment. Highly specialised in Information Technology and Production Plant Control, the Company's competence ranges from DESIGN, ENGINEERING, CONTROL SYSTEMS, APPLICATION SOLUTIONS, MAINTENANCE, and CONSULTANT SERVICES TURNKEY SUPPLIES. It is certified for UNI EN ISO 9001:2000 certification in 2004 and UNI EN ISO 9001:2008 in 2013.

Our Partner has cooperation with the following companies:

- **ABB**
- **Honeywell**
- **Emerson Process**
- **Management**
- **G.E. Power Control**
- **Rockwell/Allen Bradley**

Our partner range of system supplies and services is characterised by highly specialised offering and richness of pre-engineered solutions.

OUR EXECUTED PROJECTS

18

Below are projects executed by **BRAD2** with its partners

Client	Project name
WRPC	NNPC 2ND Observation Column Construction
WRPC	Refinery Plant Preservation
ABB	Software development & commissioning of Control and Supervisory Systems at Val D'Agri oil fields.
AGIP ITALIA	DCS's software development for Onshore & Offshore Gas Plants.
AGIP CONGO	Turn key supply of Supervisory & Control Systems at Loango offshore platforms.
AGIP ECUADOR	Turn key supply of Supervisory & Control system at Villano Oil pipeline.
AGIP OIL LIBYA	DCS design of Bouri Offshore platforms..
ESSO ITALIA	Supply of Control & Supervisory system for fuel tanks.
FIAT ENGINEERING	Instrumentation & Control systems engineering for cogeneration units.
PETROBEL EGYPT	Supply of P.L.C. control systems for Water Injection at Belajm plant.
NAOC NIGERIA	Turn key supply of Fire & Gas, P.A.G.A., ESD, D.C.S. supply at Obiafu Obrikom Oil & Gas plant.
N.I.G.E.R.I.A.	Turn key of Supervisory & Control, ESD, Fire & Gas systems for I.R.R.I. plant.
SAIPEM ENERGY INT.	D.C.S. & Instrumentation engineering for Offshore Oil & Gas production plants.
SNAMPROGETTI	DCS and Instrumentation engineering for Petrochemical & Chemical Plants.
S.O.M.I.C.E.M.	Supply of Control System for "Mostringiano Ragusa" oil pipeline - Italy.
SONATRACH	Software development of Control & Supervisory Systems of Gas Compression OK1 & G.P.D.F.
S.T.O.G.I.T. and A.G.I.P.	Supervisory System Design for Crema and Ravenna districts.
S.T.O.G.I.T. and A.G.I.P.	Gas Energy Measurement Systems for gas storage and production plants.
S.T.O.G.I.T.	Turn key supply of ESD system at Gas plant Ripalta - Italy.
TECNOMARE	Technical Specifications for Control & Supervisory and Gas Metering Systems.
TECNOMARE	Instrumentation & Control systems engineering for Oil & Gas plants.

OUR CLIENTS

OUR FINANCIAL RECORD

Our Financial Strength

BRAD2 GROUP has the capability and capacity for 100% funding of projects. We have financial resources and can arrange short and long term funds from various financial institutions, depending on the project type. We can also utilise cash-in, i.e. progress payments from the projects in execution.

We provide financial assurances to our clients and customers. To this end, we will usually adopt the most suitable financial package to suit the requirements of the client and the end-user. This set includes the provision of 'Letters of Credit', Bank Guarantees, and in some instances 'Bridge Financing'. As an indigenous organisation, BRAD2 GROUP has an adequate asset base that can provide the needed collateral cushion required by banks.

Our Financial Integrity

BRAD2 GROUP has never had any financial disputes with its clients and customers. BRAD2 GROUP is a highly professional corporation that strictly adheres to all operational laws, codes and standards observed in the relevant industry. We are also known for maintaining the highest possible international standards for our outstanding track record. We categorically want to state that BRAD2 GROUP would continue to improve in the provision of our products and services to our clients and corporations we do business with and would altogether avoid any situation that would lead to any financial disputes and litigations.

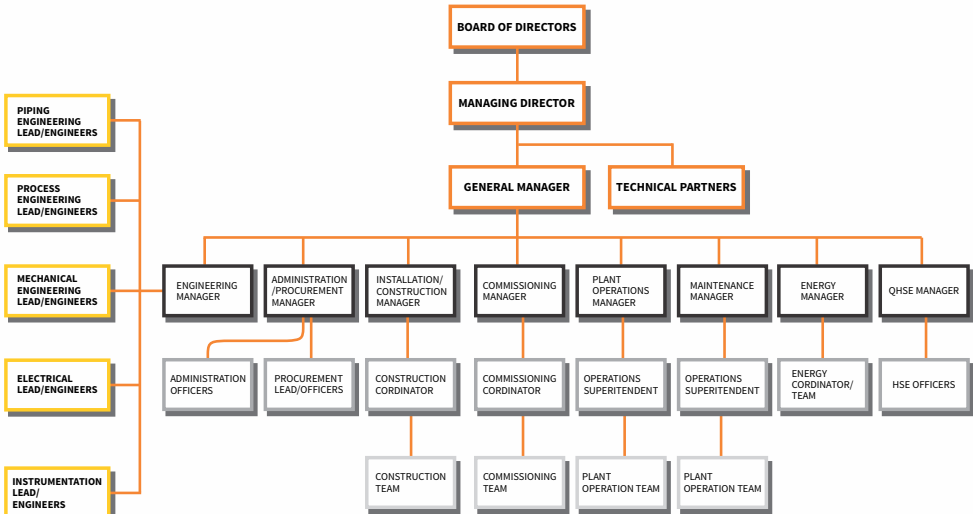

Our Bankers

GT Bank

OUR ORGANIZATIONAL STRUCTURE

BRAD2 Group has excellent and expert hands in collaboration with international experts in executing all its projects. Below is a graphical representation of our Organizational Structure.

OUR CERTIFICATION AND REGISTRATION

We are dully registered with appropriate bodies/commissions in our fields of operations. Below is a record of our certificate of Incorporation and Registration.

Registration Name	Registration No.	Reference
Certificate of Incorporation	RC 825505	Corporate Affairs Commission
NNPC SAP NO	70028828	Nigeria National Petroleum Corporation
Permit to Operate as an Oil and Gas Service Company	R.5468/2014	Department of Petroleum Resources
Certificate of registration	3896681	Warri Refinery & Petrochemical Company
Tax Clearance Certificate	05467456	Federal Inland Revenue Services
DPR Major Category	DPR/OGISP/17/1469085/N75476	Department of Petroleum Resources
DPR Major Category	DPR/OGISP/17/1400242/N80135	Department of Petroleum Resources
DPR Major Category	DPR/OGISP/17/2211397/N75127	Department of Petroleum Resources
DPR Major Category	DPR/OGISP/17/7182734/N80136	Department of Petroleum Resources

BRAD2
NIGERIA LIMITED

...Delivering technology and projects through sustainable innovation

The image features a complex industrial facility, likely a refinery or chemical plant, with numerous towers, pipes, and metal structures. The scene is partially obscured by a large diagonal graphic element consisting of a solid orange upper-left section and a white lower-right section, separated by a thick black diagonal line. The background behind the white section is a faded, light blue image of the industrial site under a cloudy sky.
